

AIR CONDITIONING

#2104 HVAC UNIVERSAL CHARGE

Use every 15,000 miles or MFG recommended schedule service

Improves the efficiency of all R-134a refrigerant air conditioning systems. It helps extend compressor life by reducing friction and operating temperatures.

It provides for an overall quieter and cooler running A/C system.

#2108 HVAC QUIET

Use every 15,000 miles or MFG recommended schedule service

A revolutionary new compressor lubricant that enhances cooling, even under the harshest of conditions.
